SUMMARY

Backend Developer with experience in Node.js, Express.js, MongoDB, JavaScript, REST API Development, Authentication & Authorization, Database Design, and Third-Party API Integration. Adept at building secure, scalable, and high-performance backend applications with a focus on code quality, system reliability, and continuous improvement.

SKILLS SUMMARY

- Programming Languages: JavaScript (ES6+)
- Backend Technologies: Node.js, Express.js, RESTful APIs, JWT Authentication, OTP Authentication
- Database: MongoDB, Mongoose
- Tools & Platforms: Git, GitHub, Postman, VS Code
- Web Technologies: HTML5, CSS3
- Core Concepts: MVC Architecture, Middleware, CRUD Operations, API Integration, Error Handling, RBAC, Async/Await, Nodemailer and Pagination.

EDUCATION

2022- 2025

Bachelor of Technology (B.Tech) – Computer Science And Design

R. R. Institute of Modern Technology, Lucknow, Uttar Pradesh

Diploma in Mechanical Engineering

2019-2022

Jhun Jhun Wala Engineering college Faizabad Ayodhya , Uttar Pradesh

EXPERIENCE

SG Webapp Techniques Kirti Nagar, New Delhi ,110015

June-2025 - Present

- Developed and maintained scalable backend applications using Node.js, Express.js, and MongoDB.
- Designed and implemented secure RESTful APIs for efficient data exchange between client and server.
- Built authentication and authorization systems using JWT and OTP-based verification mechanisms.
- Designed and optimized database schemas using MongoDB and Mongoose to improve application performance.
- Implemented Role-Based Access Control and middleware-based request validation for enhanced security
- Collaborated with cross-functional teams to develop, test, and deploy reliable backend solutions.
- Utilized Git, GitHub, and Postman for version control, API testing, and team collaboration.
- Followed MVC architecture, clean coding practices, and effective error-handling strategies to ensure maintainable and scalable code.

PROJECTS

Notebook IAS | <https://notebook-ias-web.vercel.app>

Developed a full-stack educational platform for UPSC/IAS aspirants to access structured study materials, notes, and learning resources. Built secure and scalable RESTful APIs using Node.js and Express.js, with MongoDB for efficient data management. Implemented authentication and authorization mechanisms to manage user access securely. Designed a responsive and user-friendly interface to enhance learning experience and content accessibility.

Algo Saas | <https://algo-saas-client.vercel.app>

Developed a robust backend for an Algo Trading SaaS platform using Node.js, Express.js, and MongoDB. Implemented secure REST APIs, JWT-based authentication, role-based access control, trading strategy execution, portfolio management, performance analytics, risk management, and notification services to enable secure and scalable automated trading workflows.

Gas Agency Management | <https://gas-software.vercel.app>

Developed a Gas Agency Management System using the MERN stack, enabling admins to manage branches, onboard delivery personnel, assign customers, and track gas cylinder deliveries. Implemented role-based access control, delivery status management, and secure REST APIs to streamline agency operations and improve delivery tracking efficiency.
